

Empowering Your Final Chapter

FYP PROGRESS RECORDER

We aim to provide an automated solution for the FYP recording system, addressing inherent inefficiencies in traditional methods. Automating record-keeping, progress tracking, and meeting scheduling, our system enhances the academic experience with features like deadline reminders, offering a more efficient and error-free approach to managing FYP milestones.

AI FEATURES:

Automated Result Prediction of project on the basis of project progress

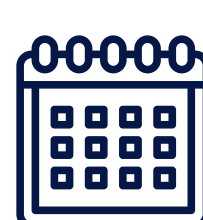

Ensure Academic Integrity with an Advanced **AI-based Plagiarism Checker**

OTHER FEATURES:

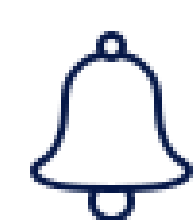

Enhance Presentation and Reporting with **Pre-designed Templates**

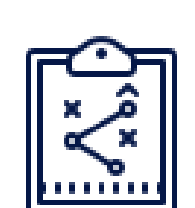

Streamline FYP Presentations and Meetings with **Efficient Scheduler**

Simplify FYP Progress Tracking and Report Generation

Notifications to students for submission deadlines and warnings

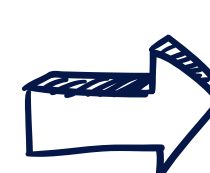

Monitor Project Progress Effectively through a Dynamic **Status Board**

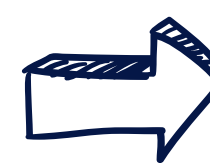

Gallery of Submitted **Project Tutorials**
